

## RAIN CAPS & DECK PENETRATIONS

For pipe penetration of steel bulkhead, PipeCon has designed and developed following solutions

### Rain caps

- ✓ For funnel top penetration.
- ✓ Equipped with flexible elements for maximum reduction of structure borne noise.
- ✓ Available in carbon- and stainless steel

### Bulkhead penetration

- ✓ Gas- and watertight.
- ✓ Equipped with flexible elements for maximum reduction of structure borne noise.
- ✓ Without flexible elements for penetration only
- ✓ With steel bellows for compensating of thermal expansion.

PipeCon is chosen due to extensive experience, excellent track record and reputation.
